4/24/96

Dear Cal,

Oswald Talked is a bad, dishonest book. He did not talk and they do not have a word of new assassination evidence in the book. It is all made-up nonsense that is not even possible.

The book Oswald and the CIA does not connect him with it. It is in many ways a misleading book and it tells us nothing new about the assassination. All it has that is new on Oswald is that the CIA had many records on him, more than most suspected. There is also much that is wrong in it.

Most of the book will misinform and mislead. Getting them wastes money and time required to read and think about them.

To the best of my knowledge the publisher has done no advertising or promoting of NEVER AGAIN! so most stores do not stock it.

Nothing I can do about that.

Best to you both,

Harold
